SUMMARY

I am a dedicated student at JG University with a strong foundation in Python and Django. My journey in software development has been enriched by hands-on internships at CreArt Solutions and Neevas, where I contributed to real projects and honed my skills in web and app development. Recently, I completed a 7-Day Power BI Micro Course, enhancing my ability to create insightful data visualizations. I am excited to bring my problem-solving skills and eagerness to learn to new opportunities in the tech industry.

SKILLS

Basic Excel

Html, CSS, Bootstrap

Python, Django

MySQL
